

Igor Castro de Gissi

Place of birth: Brazil | **Nationality:** Brazilian, Italian | **Phone:** (+55) 17981069998 (Mobile) | **Email address:** gissiigor@gmail.com | **LinkedIn:** www.linkedin.com/in/igorgissi | **Github:** <https://github.com/Kyupes> | **Address:** Brazil (Home)

● ABOUT ME

Second-year undergraduate student focused on backend development, with practical experience using TypeScript, Node.js, Express, PostgreSQL, Redis and Docker. I have developed REST APIs with authentication, authorization, automated testing, caching and layered architecture, and I am seeking opportunities to continue learning while contributing to real projects.

● PROJECTS

Employee Management REST API — TypeScript, Node.js, Express, PostgreSQL, Redis
<https://github.com/Kyupes/employee-management-api>

- Built a layered REST API with employee CRUD operations, search, pagination, statistics, PostgreSQL migrations, and runtime validation using Zod.
- Implemented JWT authentication, role-based authorization, resource ownership rules, centralized error handling, and secure password hashing.
- Added Redis cache-aside behavior with version-based invalidation, 84 unit and integration tests using Vitest and Supertest, OpenAPI/Swagger documentation, and Docker Compose support.

Technologies: TypeScript, Node.js, Express, PostgreSQL, Redis, Zod, JWT, bcrypt, Vitest, Supertest, OpenAPI, Swagger UI, node-pg-migrate, Docker and Docker Compose.

● EDUCATION & TRAINING

01/03/2025 - Current - AMSTERDAM, NETHERLANDS

BACHELOR OF SOFTWARE ENGINEER- AMSTERDAM TECH

Level in EQF: 6 | **Website:** <https://amsterdam.tech/>

10/06/2023 - 12/07/2024 - SÃO PAULO, BRAZIL

DEV FULL STACK- FULLTURE

Field(s) of study: Software Development | **Website:** fullture.com

● SKILLS

Backend | Git | TypeScript | JavaScript | PostgreSQL | Node.js | NPM | Express | REST Api's

● CERTIFICATIONS

10/02/2026 Duolingo English Test

English Proficiency Certificate
